

# EUGEN CODA

## FULL STACK DEVELOPER

## PERSONAL PROFILE

Hard-working, self-taught full-stack developer.

Ability to work with teams and individuals with different backgrounds and experience levels.

People management experience of 4+ years, with a professional background in finance and accounting.

Seeking to further improve React and Node.js skills as a freelancer developer and by building modern, easy to use web applications, using the MERN stack.

## SKILLS

HTML, CSS, JavaScript (ES6)

React (React Hooks, Context API)

Pug, Bootstrap & Material UI

Node.js (express.js)

MongoDB (mongoose)

## WORK EXPERIENCE

### Accenture, PTP Tower Lead

JAN 2019 - DEC 2019 (WARSAW, POLAND)

JUL 2018 - DEC 2018 (BUCHAREST, ROMANIA)

#### Key Qualifications & Responsibilities

- Coordinated multinational teams of 20+ F&A professionals (including team leads)
- Managed the team performance and acted as the team leads' career counselor
- Helped team members identify improvement opportunities in team processes, systems and methods, the existing team structure, and suggest solutions.
- Maintained efficient communication with other Accenture teams and management, and client teams
- Managed the transition of various F&A processes between delivery locations

#### Key Achievements

- Encouraged all team members to work on their professional development and career growth by providing ongoing support and feedback, facilitating their training on relevant topics, and assigning roles compatible with their skills and abilities and consistent with their career aspirations.
- Successful transition of 25+ FTE activities in another delivery location, in line with the knowledge transfer plan and go-live targets).
